

## Marvin's Building Materials and Home Centers New Store Openings.

*Leeds, Alabama, March 9, 2011*

Marvin's Building Materials and Home Centers is pleased to announce plans to open a new store in Monroeville, Alabama. The store will soon be under construction at the former Food World site on Pike Street in the shopping center between South Alabama Avenue and Hwy 21 Bypass, and is expected to open in late May. The store will feature a 35,000 square foot home center with an attached lawn and garden center and drive through lumberyard. The store will offer a complete line of building materials, electrical, plumbing, paint, millwork, hardware, tools, and lawn and garden products. Marvin's is known for its friendly, neighborhood stores that make home improvement projects easy and affordable. "Making it easy for our customers is what Marvin's is all about," said Darrin Gilliam, CEO. "We've been working towards the goal of opening a store to serve Monroeville for quite some time. Our research indicates we will capture a great deal of sales that are currently being served outside of Monroe County. We would like to thank the very hard efforts of Mayor Kennedy, Judge Norris, the Council, Glen Haab, and Dr. John Johnson in support of this project," said Gilliam.

Marvin's will hire 25 or more associates to work in the new store. "We like to hire friendly people from the community. All of our stores have a 'hometown' feel," said Gilliam. The Monroeville Career Center is collecting employment applications for all open positions. People who are interested may pick up and turn in their application at the Alabama Career Center located at 33 Outlet Drive. Available positions range from management to part-time associates. Job descriptions and more information on Marvin's are available on our website at [www.marvins.com](http://www.marvins.com).

The new store in Monroeville is the one of two new stores Marvin's is planning to open in 2011. Marvin's currently operates 26 stores in Alabama, Mississippi, and Georgia. Marvin's was named the 2010 Retailer of the Year by the Home Channel News.
