

Marvin's Building Materials and Home Centers New Store Openings.

Leeds, Alabama, July 19th, 2011

Marvin's Building Materials and Home Centers is pleased to announce plans to open a new store in Eufaula, Alabama. The store will soon be under construction at the former Wal-Mart site shopping center on Hwy 431, and is expected to open in early October or sooner. The store will feature a 34,000 square foot home center with an attached lawn and garden center and drive through lumberyard. The store will offer a complete line of building materials, electrical, plumbing, paint, millwork, hardware, tools, and lawn and garden products. Marvin's is known for its friendly, neighborhood stores that make home improvement projects easy and affordable. "Making it easy for our customers is what Marvin's is all about," said Darrin Gilliam, CEO. "We've been working towards the goal of opening a store to serve Eufaula for several years. The city has been very helpful throughout the process. All the pieces finally came together to make it happen. Our research indicates we will capture a great deal of sales that are currently being served outside of Barbour County. We would like to thank the very hard efforts of Mayor Jay Jaxon, Economic Development Director Jim Bradley, Director of Planning Sheri Proctor, and the entire city council in support of this project," said Gilliam.

Marvin's will hire approximately 25 associates to work in the new store. "We like to hire friendly people from the community. All of our stores have a 'hometown' feel," said Gilliam. The Chamber of Commerce is collecting employment applications for all open positions. People who are interested may pick up and turn in their application at the Chamber of Commerce located at 333 East Broad Street Eufaula, AL 36027. Available positions range from management to part-time associates. Job descriptions and more information about Marvin's can be found on our website at www.marvins.com. DHS Ventures from Daphne, AL is the developer on this project and plans on revitalizing the center with a total of 3 additions by nationally ranked tenants.

The new store in Eufaula is the second of two new stores for Marvin's in 2011. Monroeville, AL opened in late May. Marvin's currently operates 26 stores in Alabama, Mississippi, and Georgia. Marvin's was named the 2010 Retailer of the Year by the Home Channel News.
